

Wall Mount Instructions

The 'back splash' is rolled up and packed inside one of the smaller boxes.

The Display Header is a 2-piece unit.

The 'top header' is packed inside a cardboard envelope.

Use Care When Opening Boxes with a Knife !

A. Display frame slides into slatwall or can be mounted on a solid wall using screws or anchor bolts (not included).

B. The 'top header' mounts on top of the display frame, but behind the 'backsplash'.

The aluminum bar, which holds the hanging hooks, mounts on top of everything. The Flat Head Bolts go thru all four items, with a nut on the back side.

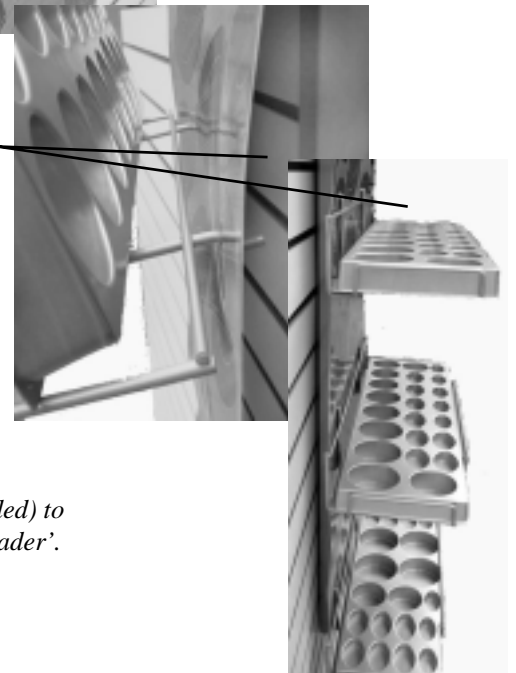

C. The hooks will slide inside extruded bar. They are adjustable to accommodate different products.

E. The assembled unit. **NOTE:** Shelf for large 1 liter Bike Wash is on the bottom.

D. The shelves mount through the back panel and into the frame.

Tip: You can use double-sided tape (not included) to keep the 'back splash' snug against the 'top header'.
