

**Finish Line™**  
**1-STEP™**  
**CLEANER & LUBRICANT**

**Clean and Lube in One Easy Step!**

Finish Line's new 1-Step Cleaner & Lubricant is uniquely formulated to penetrate, lift, and flush dirt and grime off the chain, leaving behind a fresh, clean lubricating film. Additionally, 1-Step is formulated with high-performance anti-rust additives to provide maximum rust and corrosion protection.

1-Step is engineered for recreational cyclists and commuters who seek a quick, "clean and lube" product. Due to its versatility in all weather conditions and its strong cleaning and lubricating formulation, 1-Step is the preferred choice of many cyclocross riders as well. It is also the perfect choice for cyclists who are new to the bike maintenance category, and for those who may lack the time to focus on optimum chain cleaning and condition-specific lubrication.

In short, 1-Step prevents premature component wear while reducing pedaling friction and drive-train noise. 1-Step is an extremely effective performance-enhancing bicycle maintenance product.
