

CHAIN CLEANER

Finish Line™ SHOP QUALITY CHAIN CLEANER

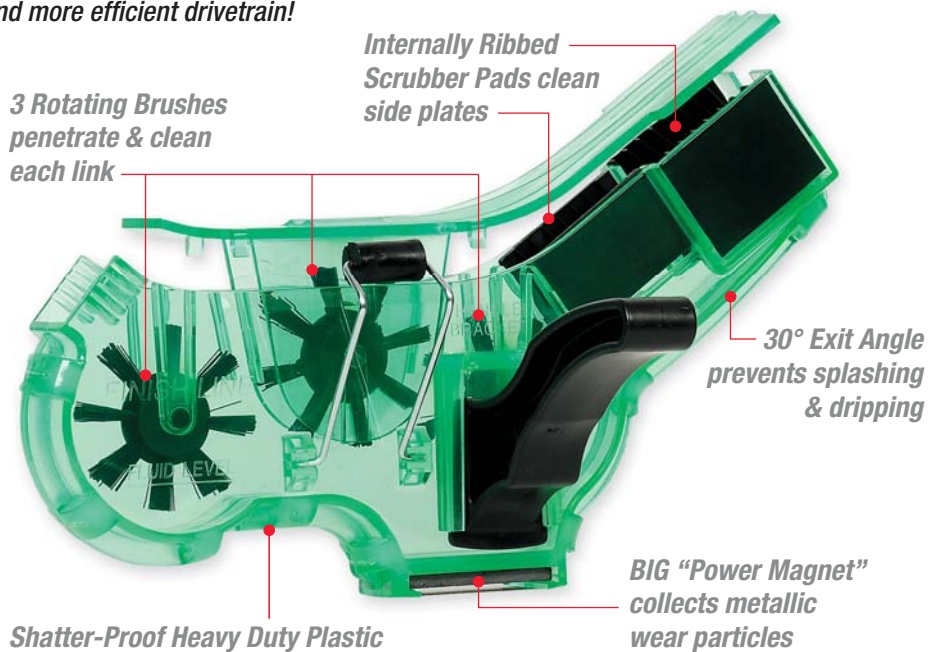

“The Finish Line Chain Cleaning Kit is a must.”

- RoadCycling.com Review, Dave Osborne

The Finish Line Chain Cleaner has been the industry’s best selling chain cleaner for over 8 years. This Chain Cleaner will make you wonder why you ever suffered along with a dirty, grindy, messy chain – it’s that easy to use!

- Fill the reservoir with degreasing fluid, and then lock the easy-close clamp.
- Hold the ergo-handle with your left hand, and simply backpedal with your right hand for about 30 seconds.
- The 3-brushes will rotate with the chain, while each bristle cleans the inside of each chain link.
- The perfectly positioned scrubber pads remove the accumulated grime from the outside of the chain and route it to the bottom of the chain cleaner.

The Finish Line Chain Cleaner should be used at least once a month to maximize bicycle chain life and to enjoy a cleaner, smoother and more efficient drivetrain!

A V A I L A B L E A S
