

Finish Line™

SUPER BIKE WASH

Spray On – Wipe or Rinse Off

After a long mountain bike ride or a long winter in storage, treat your bicycle to a complete washing. Special surfactants and cleaning agents in Finish Line Super Bike Wash will quickly clean dirt, clay and oily surface grime off your bike with little-to-no scrubbing.

Super Bike Wash is a complex bio-cleaning compound. Five different cleaning agents work together to create a high-speed cleaning system. It is not a soap or detergent and it does not contain chlorinated solvents, phosphates, benzenes, or naphthas, making it safe for your bike and the environment.

Super Bike Wash can be used on all surfaces and components on a bike, including carbon fiber, aluminum, titanium and clear coat. Great for ATVs, motocross, boats and more!

FEATURE

- Contains No Petroleum Solvents, Phosphates, Benzenes, Napthas
- Non-Toxic & Biodegradable
- Formulated with a Water Soluble Polish Agent

BENEFIT

- Safe for All Bicycle Surfaces
- Safe for The Environment
- Provides Protective Shine, Helps Repel Dirt and Grime

SAFETY, HEALTH AND THE ENVIRONMENT:

- Features a readily biodegradable formulation, which means that more than 92% of the product's ingredients will degrade within 28 days.
- Super Bike Wash is non-corrosive, and when used in quantities and applications as intended, is non-toxic.
- Contains no solvents, phosphates, benzenes, napthas, or ozone depleting compounds that are common to similar cleaning products.
- REACH compliant for Europe. All ingredients used are listed with all major worldwide chemical inventories.
- Contains no carcinogenic elements or hazardous air pollutants (HAPs) ingredients and is 100% California Air Regulatory Board (CARB) Compliant.
- All Super Bike Wash is packaged in recyclable #1 PET plastic bottles and jugs.
